

Piano Instrumental Rental

Students are required to rent the provided keyboard to participate in the group classes.

Why rent a keyboard?

- Students will now be able to practice at home
- Students will gain responsibility and ownership for the keyboard
- This type of keyboard is lightweight and portable with the carrying case provided

What if I already have a piano at home?

- Students do not necessarily need to practice on the rented keyboard, however students need to bring this keyboard to class
- Students with their own piano to practice at home can leave the keyboard in a safe spot until it is time for class. Pianos must be in a safe spot away from water damage or harsh heat

How do I keep the piano in great condition?

- Keep away from water! The piano keyboard is similar to a laptop or electronic device, keep away from liquids at all times.
- When moving the keyboard, use the provided case for extra protection from scratches
- Turn off the keyboard when it is not in use, there is not a sleep mode on this device.
- Monitor young children and animals near the keyboard.
- Ensure there are only hands touching the keys, no pencils, pens, toys, crayons etc.

See you in Piano Class!
